## Resourceful Reminders

No one wants to waste resources. But sometimes people use more water, electricity, or gas than they really need. Here are some ways you can remind your family to save resources.

Color the pictures. Cut them out and put them up around your house. (Get permission first!) Good places might be on your refrigerator, near a light switch, and next to a sink or tub.

Short showers save water!

Save energy—lights out!

Cleaning your choppers?  
Turn off the water.

Cool it! Decide what you want  
before you open the fridge.
